

How do I navigate?

Roll the trackwheel to move the cursor and highlight items on the screen.

Click (press) the trackwheel to open the menu or select items.

Press the Escape button to exit a screen, cancel an action, or go back one page in the browser.

How do I type?

To type using SureType™ technology, press the key for each letter of a word only once. When the word is finished, press .

Put it to the test! Try to type an entire sentence without stopping to make corrections.

- Compose new message Press 
- Reply to sender Press 
- Reply to all Press 
- Forward message Press 
- Go to the next message Press 
- Go to the previous message Press 
- Go to messages from the next day Press 
- Go to messages from the previous day Press 
- Go to the next unread message Press 
- Go to the top of the list Press 
- Go to the bottom of the list Press 
- View phone call logs Press  + 
- View received messages Press  + 

Calendar

For these shortcuts to work in Day view, in the calendar options, set the **Enable Quick Entry** field to **No**.

- Go to the next day, week, or month Press 
- Go to the previous day, week, or month Press 
- Schedule an appointment Press 
- Move the cursor horizontally in week view Hold  + Roll the trackwheel
- Move the cursor vertically in month view Hold  + Roll the trackwheel

Note: The arrangement of letters on your device keypad might vary slightly from the depictions on this document.

Navigating screens

- Lock the device/keyboard** Hold or Click **Keyboard Lock** (set a password for added security).
- Unlock the device/keyboard** Press + or Double-click the trackwheel
- Move the cursor** Roll the trackwheel or Press + Roll the trackwheel
- Return to the previous screen** Press the **Escape** button
- Return to the Home screen** Press
- Click an item** Highlight the item > Click the trackwheel
- Select multiple items** Hold + Roll the trackwheel
- Switch between programs** Hold + Press the **Escape** button
- Go to the top of a screen** Press
- Go to the bottom of a screen** Press
- Turn on/off the device** Hold the **Power** button

Typing and editing

- Type using SureType™ technology** Type the whole word. Press each letter key only once.
Press
- Finish typing a word and begin a new word** Press
- Move through the list that appears when you type** Press
- Select an item from the list that appears when you type** Press or
- Capitalize a letter** Hold the letter
Press twice
- Insert a period** Press + the key
- Type the alternate character on a key** Press + >
Press a letter
or
Press again to see
- Insert a symbol** Hold a letter + Roll the trackwheel
- Insert an accented character** In a text field, hold
- Switch between the multi-tap and SureType™ input methods** Press a key once for the first letter. Press a key twice for the second letter.
- Type using multi-tap input method**

Fields

- Press to change the value in a field.
- Press to view all the values that are available in the selected field.
- In an option screen, you can also select an option and click the trackwheel. Click **Change Option**. Click a value.

Menus

- Click the trackwheel to view the menu.
- On the menu, click standard menu items such as **New**, **View**, **Edit**, **Delete**, **Save**, **Options**, and **Help**. Additional menu items might appear depending on the item you have selected.

Programs

Explore the many useful programs that your BlackBerry device has to offer. Here are a few to get you started.

Click **Messages** to view the messages list, compose new messages, and set options for email messages.

Click **Browser** to visit web pages, download items, and set browser options. Your device might have more than one browser.

Click **Profiles** to set and edit ring tone profiles or to manage downloaded ring tones.

Click **Applications** to find additional programs including the memos list, search program, saved messages, alarm, pictures list, help, and more!

Click **Settings** to find the main list of device options, Bluetooth® settings, and wireless settings.

Welcome to BlackBerry!

Whether you plan to use your BlackBerry® device for business or personal productivity, you have made an excellent choice! With powerful push-messaging, voice, web, and organizer features, BlackBerry is the all-in-one solution that is designed to keep you connected to the people, data, and resources that you need every day.

To begin using your BlackBerry device, you must set up and turn on the device, connect to the wireless network, and set up your supported email account. You can also choose to install the BlackBerry Desktop Software so that you can connect your device to your computer for data synchronization and charging.

Take a moment to read this guide and any documents provided by your service provider. These resources provide important setup information and are designed to help you get the most from your BlackBerry device! Additional resources are listed in the back of this guide.

About SureType

Your BlackBerry device is equipped with SureType™ innovative keyboard technology, which integrates a traditional phone keypad and a familiar keyboard layout with intuitive software. It "learns" as you type, recognizing word patterns and enabling you to type information easily.

When you type, the letters on screen change automatically—by the time you've finished typing a word, SureType has probably already figured out the word you want to type. It's that smart! This evolutionary technology enables you to easily, quickly, and accurately type words without having to get used to an unfamiliar keyboard layout.

See "Type using SureType" on page 15 for more information about typing.

Setting up your device

Insert the SIM card

Your SIM card contains important information about your wireless service. Your SIM card might be inserted already.

Warning: Turn off your device before you insert or remove the SIM card. Do not scratch, bend, or expose the SIM card to static electricity or wet conditions.

1. Press the battery cover release button.

2. Slide off the battery cover.
3. If the battery is inserted, remove it.
4. Hold the SIM card with the metal contacts facing down so that the notches on the card align with the notches in the SIM card holder on your device.

5. Slide the SIM card into the holder so that it lies flat below the metal guide.

Note: To remove the SIM card, press the tab. Slide the SIM card over the tab and out of the holder.

Insert the battery

Warning: Use only the battery that Research In Motion® specifies for use with your device. See the Safety and Product Information booklet that accompanied your device for more information about using the battery safely.

1. Press the battery cover release button.
2. Slide off the battery cover.
3. Insert the battery so that the connectors on the battery align with the connectors on your device.

4. Replace the battery cover.
5. If the battery is charged, your device turns on and the confirm date and time dialog box appears.
 - If the date and time are incorrect, click **Edit**. See "Set the date and time" on page 17 for more information.
 - If the date and time are correct, click **OK**.

Charge the battery

1. Connect the small end of the USB cable to your device.

2. If required, slide the plug blade attachment into the power adapter.

3. Plug the power adapter into a power outlet.
4. Charge the battery to full power.

Note: If you install the BlackBerry Desktop Software, you can charge your device by connecting it to your computer. See "Can I charge my device by connecting it to my computer?" on page 19 for more information.

Connect to the wireless network

On the device, if the power is off, press the **Power** button. Your device should connect to the wireless network automatically.

To connect to the wireless network successfully, your wireless service must be active, and you must be in a wireless network coverage area. See the wireless network coverage chart on the inside front cover of this guide for more information.

When your device is not connected to the wireless network, you can continue to use features that do not require a connection to the wireless network. For example, you can type and save draft email messages, manage tasks, or use the calculator.

Note: If you use BlackBerry Internet Service, the account setup process should begin automatically the first time that your device connects to the wireless network. See "Setting up for email using BlackBerry Internet Service" on page 9 for more information.

Choosing your email setup option

To begin sending and receiving email messages on your BlackBerry device, you must integrate your device with an email account using one of the following options.

BlackBerry Internet Service option

Use this option if one or more of the following situations apply:

- You purchased your device in a store.
- You want to set up a new email account for use with your device.
- You want to send and receive email messages on your device from one or more existing supported email accounts.

Note: To use this option, you must subscribe to a wireless service that supports email setup using BlackBerry Internet Service.

If this setup option applies to you, see "Setting up for email using BlackBerry Internet Service" on page 9 for more information.

BlackBerry Enterprise Server option

Use this option if all the following situations apply:

- A system administrator is managing a BlackBerry Enterprise Server™ within your company.
- A system administrator has confirmed that you are permitted to use the BlackBerry Enterprise Server.
- You want to receive messages from a corporate Microsoft® Outlook®, IBM® Lotus Notes®, or Novell® GroupWise® email account.

- Your supported email account resides on a Microsoft Exchange, IBM Lotus® Domino®, or Novell GroupWise email server.
- You subscribe to a wireless service that supports account setup using the BlackBerry Enterprise Server.

If this setup option applies to you, see "Setting up for email using BlackBerry Enterprise Server" on page 13 for more information.

Setting up for email using BlackBerry Internet Service

Create an account

You must create an account to begin using email on your BlackBerry device. The account that you create supplies the default email address for your device.

1. Verify that your device is connected to the wireless network and that you are in a wireless coverage area.

If the Sign In screen does not appear automatically, click **Mobile Email**.

2. On the Sign In screen, click **Create Your Account**.

Note: To follow a link in the browser, click the link. Click **Get Link**.

3. Click **Continue**.

4. Read the legal terms and conditions carefully. Perform one of the following actions:

- To decline the legal terms and conditions and stop the setup process, click **I Disagree**.
- To accept the legal terms and conditions and continue the setup process, click **I Agree**.

5. Type your account information.

- **User ID:** Type a personal user ID for your account. This user ID will be your login name and the first part of the default email address for your device.
- **Friendly Name:** Type the name that you want to appear in the From field of messages that you send. If you do not type a name, the default email address for your device appears in the From field.

- **Password:** Type a personal login password. Passwords must contain between 4 and 16 characters. Passwords are case sensitive and cannot contain accented characters.
- **Re-enter Password:** Retype your personal login password.

Note: Write down your user ID and password and keep the information in a safe place. You must type this information every time that you log in to your BlackBerry Internet Service account.

6. Select a secret question.
If you forget your password, you are prompted with this question.
7. Type an answer to your secret question.
8. Click **Submit**.
9. Click **Done**.
10. Perform one of the following actions:

- To receive email on your device from other supported accounts, click **Add Account**. See "Receive messages from other email accounts" on page 10 for more information.
- To log in to your account without adding other email accounts, click **Continue**.

Tip: If you have problems creating your account using your device, create your account using a desktop browser. See "Set account options" on page 11 for more information.

Log in to your account

Log in to your BlackBerry Internet Service account to manage settings and message options.

1. Verify that your device is connected to the wireless network and that you are in a wireless coverage area.

2. Click **Mobile Email**.

3. On the Sign In screen, type your account information.

- **User ID:** Type the login name for your account.
- **Password:** Type the password for your account.

4. Click **Submit**.

Note: To follow a link in the browser, click the link. Click **Get Link**.

Receive messages from other email accounts

Set up your BlackBerry Internet Service account to retrieve messages from an existing supported email account and deliver them to your device. Add up to ten different existing supported accounts.

Note: Depending on your Internet service provider (ISP) or system administrator, you might not be able to add some types of accounts.

1. Verify that your device is connected to the wireless network and that you are in a wireless coverage area.
2. Log in to your BlackBerry Internet Service account. See "Log in to your account" on page 9 for more information.
3. Click **Add Account**.

Note: To follow a link in the browser, click the link. Click **Get Link**.

4. Type the information for the account that you want to add.
 - **Email Address:** Type the full email address of the account.

- **User Name:** Type the login ID (for example, *kateturner* or *domain1.kateturner*).
- **Password:** Type the password.
- **Re-enter Password:** Retype the password.

5. Click **Submit**.

6. Depending on the account that you add, you might be prompted to select an account type.

7. Depending on the account type that you select, you might be prompted for the following information:

- **Email Server:** Type the messaging and collaboration server address for your Internet service provider (for example, *mail.ispname.com*). If you do not know the address, contact your Internet service provider.
- **Port Number:** Type the appropriate port number. If you do not know the number, contact your Internet service provider.
- **Outlook Web Access URL:** Type the web address for your Microsoft Outlook account.
- **Mailbox Name:** Type the mailbox name for your Microsoft Outlook account.
- **iNotes™ URL:** Type the web address for your IBM Lotus Notes account.
- **Leave messages on mail server:** Clear this check box if you do not want to save messages that are sent to your device on the messaging server.

Note: If you delete a message from your device, you cannot recover it.
- **Utilize SSL:** Turn on Secure Sockets Layer encryption for retrieving messages from

this account, if SSL is supported by your Internet service provider.

Note: If you add a corporate Microsoft Outlook or IBM Lotus Notes email account, you might be prompted to install the BlackBerry Mail Connector application on your computer. Complete the on-screen instructions. See "What is the BlackBerry Mail Connector?" on page 21 for more information.

8. Click **Submit**.

Set account options

Set additional account and message options by logging into your account using a desktop browser.

To access your account using a desktop browser, the following system requirements apply:

- **Internet browser:** Microsoft® Internet Explorer version 5.01, 5.5, or 6.0 (or later) or Netscape® Communicator version 4.08 to 4.58 with JavaScript™ enabled

Note: Netscape Communicator version 6 (or later) is not supported.

- **Operating system:** Microsoft® Windows® 95, Windows 98, Windows ME, Windows NT® (version 4), Windows 2000, Windows XP, or Mac OS® 9.0 or 10.0

1. In your desktop browser, type the appropriate web address:

Australia:

www.mobileemail.vodafone.com.au

France:

www.mobileemail.vodafone.fr

Germany:

www.mobileemail.vodafone.de

Greece:

www.mobileemail.vodafone.gr

Ireland:

www.mobileemail.vodafone.ie

Italy:

www.mobileemail.vodafone.it

Netherlands:

www.mobileemail.vodafone.nl

Portugal:

www.mobileemail.vodafone.pt

South Africa:

www.mobileemail.vodafonesa.co.za

Spain:

www.mobileemail.vodafone.es

Sweden:

www.mobileemail.vodafone.se

United Kingdom:

www.mobileemail.vodafone.net

2. Log in to your account.
3. Use this web site to set additional account options, which include
 - reactivating your account
 - changing your password
 - creating an auto signature
 - setting options for sent messages
 - switching to a new device

See the *BlackBerry Internet Service Online Help* for more information about setting these options.

Install the BlackBerry Desktop Software

Install the BlackBerry Desktop Software to perform any of the following actions:

- synchronize personal information management (PIM) data such as contacts, tasks, and appointments
- backup and restore device data
- load new device programs such as updated system software, games, and third-party personal information management programs
- charge your device using your computer

To install the desktop software, the following system requirements apply:

- Intel®-compatible 486 or higher computer that is compliant with USB 1.1 or later
 - Windows®98, Windows ME, Windows 2000, or Windows XP
 - Available USB port
 - If you use Windows 98 (not Windows 98 Second Edition), you must download the DCOM 98 version 1.3 update from www.microsoft.com/com/default.msp for the USB driver to operate as expected.
1. Insert the BlackBerry Desktop Software Installation CD into your CD drive.
 2. Complete the on-screen instructions.
 - Select **BlackBerry Internet Service** as your account integration option.
 3. When the installation is complete, connect the smaller end of the USB cable to your device.
 4. Connect the larger end of the USB cable to an available USB port on your computer.
 5. On the Windows taskbar, click **Start**.
 6. Click **Programs > BlackBerry > Desktop Manager**.

Note: To find more information about the features of the BlackBerry Desktop Software, click **Help > Desktop Help Contents**.

Setting up for email using BlackBerry Enterprise Server

Your system administrator might set up your device for email on your behalf, or you might need to integrate your BlackBerry device with a supported email account yourself using one of the methods described here.

Use enterprise activation

If your system administrator has provided you with an enterprise activation password, you can integrate your supported email account directly from your device.

1. Verify that your device is connected to the wireless network and that you are in a wireless coverage area.
2. On your device, click **Enterprise Activation**.
3. Type your supported corporate email account address.
4. Type the enterprise activation password provided by your system administrator.
5. Click **Activate**.

Note: Your system administrator might request that you install the BlackBerry Device Manager program on your computer to reduce the amount of data that is sent over the wireless network when your device is connected to your computer.

Use the BlackBerry Desktop Software

If your system administrator does not provide you with an enterprise activation password, you can install the BlackBerry Desktop Software on your computer to integrate your device with your supported email account.

To install the desktop software, the following system requirements apply:

- Intel-compatible 486 or higher computer that is compliant with USB 1.1 or later

- Windows 98, Windows ME, Windows 2000, or Windows XP
 - Available USB port
 - If you use Windows 98 (not Windows 98 Second Edition), you must download the DCOM 98 version 1.3 update from www.microsoft.com/com/default.mspix for the USB driver to operate as expected.
1. Insert the BlackBerry Desktop Software Installation CD into your CD drive.
 2. Complete the on-screen instructions.
 - Select **BlackBerry Enterprise Server or BlackBerry Desktop Redirector** as your account integration option.
 - Select **BlackBerry Enterprise Server** as your email redirection option.
 3. When the installation is complete, connect the smaller end of the USB cable to your device.
 4. Connect the larger end of the USB cable to an available USB port on your computer.
 5. On the Windows taskbar, click **Start**.
 6. Select **Programs > BlackBerry > Desktop Manager**.
 - When you are prompted to generate an encryption key, complete the on-screen instructions.

Note: To find out more information about the features of the BlackBerry Desktop Software, click **Help > Desktop Help Contents**.

How do I...

Make phone calls

On the Home screen, type a phone number. Press the **Send** key. To end the call, press the **End** key.

Notes: Press the **Send** key on any screen to open the phone.

Select a contact, call log, or phone number link on any screen and press the **Send** key to make a call.

To turn on speakerphone during a call, click the trackwheel. Click **Activate Speaker**. To turn off speakerphone, click the trackwheel. Click **Activate Handset**.

Type using SureType

To type in most fields, use the SureType input method. Press the key for each letter of a word once until you have typed an entire word. When you use SureType technology, the letters on the screen change automatically until the word is complete.

For example, to type the word **run**, press **ER + UI + BN**. Press the **Space** key.

If you type all the letters in a word and the word does not appear correctly, or if more than one word is available for the keys that you pressed, use the list to build a word.

- To move through selections in the list, press the **Next** key. You can also roll the trackwheel to move forward and backward in the list.
- To choose a selection from the list and continue typing the same word, press the **Enter** key or click the trackwheel.
- To choose a selection from the list and begin typing a new word, press the **Space** key.
- To delete letters that you have typed, press the **Backspace/Delete** key.

Send email messages

You must set up a supported email account to use with your device before you can send and receive email messages. See "Choosing your email setup option" on page 7 for more information.

1. In the messages list, click the trackwheel.
2. Click **Compose Email**.
3. In the **To** field, type an email address or a contact name.
4. Type a message.
5. Click the trackwheel.
6. Click **Send**.

Note: If your device is integrated with more than one email account, you can select an account to send the message from. At the top of the message, in the **Send Using** field, press the **Space** key until the preferred email account appears.

Send PIN messages

A personal identification number (PIN) uniquely identifies each BlackBerry device on the network. If you know the PIN of another BlackBerry device user, you can send a PIN message to that person. To find your PIN, in the device options, click **Status**.

1. In the messages list, click the trackwheel.
2. Click **Compose PIN**.
3. In the **To** field, type a PIN or a contact name.
4. Type a message.
5. Click the trackwheel.
6. Click **Send**.

Send SMS (text) messages

1. In the messages list, click the trackwheel.

2. Click **Compose SMS**.
3. Click **[Use Once]**.
4. Click **SMS**.
5. Click **Phone**.
6. Type an SMS-compatible phone number.
7. Click the trackwheel.
8. Click **Continue**.
9. Type a message.
10. Click the trackwheel.
11. Click **Send**.

Note: If you have added contacts to the address book, you can select a contact from the list after you click **Compose SMS**.

Send MMS (multimedia) messages

1. In the messages list, click the trackwheel.
2. Click **Compose MMS**.
3. Click **[Use Once]**.
4. Click **MMS**.
5. Select a send method for your MMS message.
6. Type an MMS-compatible phone number or an email address.
7. Click the trackwheel.
8. Click **Continue**.
9. Type a message.
10. Click the trackwheel.
11. Click **Attach Address, Attach Appointment, or Attach Picture**.
12. Click a contact, appointment, or image.
13. Click **Continue**.
14. Click the trackwheel.
15. Click **Send**.

Note: If you have added contacts to the address book, you can select a contact from the list after you click **Compose MMS**.

Add contacts

1. In the address book, click the trackwheel.
2. Click **New Address**.
3. Type the contact information.
4. Click the trackwheel.
5. Click **Save**.

Add SIM card contacts to your address book

If you have saved contact information on your SIM card, you can copy that information into the address book on your device.

1. In the address book, click the trackwheel.
2. Click **SIM Phone Book**.
3. Click the trackwheel. Click **Copy All To Address Book**.

Go to web pages

1. In the browser, click the trackwheel.
2. Click **Go To**.
3. Type a web address.
4. Click the trackwheel.
5. Click **OK**.

Notes: To insert a period, press the **Space** key.

To insert a slash mark (/), press the **Shift** key + the **Space** key.

The **Go To** dialog box tracks the web addresses that you type. To go to a web page on the list, click the web address. Click **OK**.

Type passwords

To type passwords, use the multi-tap input method. Press the key once to type the first letter on the key, or press the key twice to type the second letter on the key. If the password contains capital letters, hold the letter key. When you have finished typing your password, press the **Enter** key.

Set a device password

1. In the device options, click **Security Options**.
2. Click **General Settings**.
3. Set the **Password** field to **Enabled**.
4. Set the other security options.
5. Click the trackwheel.
6. Click **Save**.
7. Type a device password.
8. Click the trackwheel.
9. Retype the device password.
10. Click the trackwheel.

Lock and unlock the device

With a device password set, on the Home screen, click **Lock**.

To unlock your device, on the Lock screen, roll the trackwheel. Click **Unlock**. Type your password. Press the **Enter** key.

Note: When the device is locked, you should be able to make an emergency call without dialing the emergency access number. Click **Emergency Call**. Click **Yes**.

Set the date and time

1. In the device options, click **Date/Time**.
2. Set the **Time Zone** field.
3. In the **Date/Time Source** field, set a date and time source.

4. Click the trackwheel.
5. Click **Update Time**.
6. Click the trackwheel.
7. Click **Save**.

Note: To set the date and time yourself, set the **Date/Time Source** field to **Off**. Set the other fields on the Date/Time screen to display the correct date and time. Save your changes.

Enable profiles

In the profiles list, click a notification profile. Click **Enable**.

Note: To change the current notification profile quickly, select a profile. Press the **Space** key.

Turn on or off the Bluetooth radio

To turn on the Bluetooth® radio, in the device options, click **Bluetooth**. Click the trackwheel. Click **Enable Bluetooth**.

To turn off the Bluetooth radio, in the device options, click **Bluetooth**. Click the trackwheel. Click **Disable Bluetooth**.

Pair with another Bluetooth-enabled device

1. In the device options, click **Bluetooth**.
2. Click the trackwheel.
3. Click **Add Device**.
4. Click the name of a Bluetooth-enabled device.
5. In the **Enter passkey for <device name>** field, type a passkey.
6. Type the same passkey on the Bluetooth-enabled device to which you are pairing.

Notes: Verify that the Bluetooth-enabled device that you want to pair with is in the correct mode for pairing.

The names of Bluetooth-enabled devices with which you have already paired appear in the list of paired Bluetooth-enabled devices. They do not appear in the list of Bluetooth-enabled devices that appears when you click **Add Device**.

Find help with other features

To access a list of topics that are associated with the program that you are using, in a program, click the trackwheel. Click Help.

To open the main list of topics for all programs, on any Help Screen, click the trackwheel. Click Index.

Frequently asked questions

Why does my device not turn on?

The power might be off. Press the **Power** button.

The battery might not be charged. See "Charge the battery" on page 6 for more information.

Why does my device not charge?

A connection might not be complete. Check that all cables and plugs are fully inserted into ports and power outlets. See "Charge the battery" on page 6 for more information.

The battery might not be inserted properly. Remove and reinsert the battery. Verify that the connectors align. See "Insert the battery" on page 5 for more information.

If you connect your device to the computer to charge, verify that the computer is turned on. If you connect your device to the computer using a USB hub, the hub must be self powered to provide enough power to charge your device.

Can I charge my device by connecting it to my computer?

If you have installed the BlackBerry Desktop Software or the BlackBerry Device Manager on your computer you can connect your device to the computer to charge the battery.

1. Verify that the computer is turned on.
2. Connect the smaller end of the USB cable to your device.
3. Connect the larger end of the USB cable to an available USB port on your computer.

Note: To find more help with connecting your device to the computer, in the desktop software, click **Help** to view the *BlackBerry Desktop Software Online Help*.

Why can I not send or receive email messages?

Verify that your device is connected to the wireless network and that you are in a wireless coverage area. See "Connect to the wireless network" on page 6 for more information.

Verify that you have set up a supported email account for use with your device. See "Choosing your email setup option" on page 7 for more information.

If you are using BlackBerry Internet Service, log in to your account using a desktop browser. See "Set account options" on page 11 for more information.

- Verify that your BlackBerry Internet Service account mailbox has not exceeded its size limit.
- Send a service book to reactivate your account.

If you continue to be unable to send and receive messages, reset your device by removing and reinserting the battery.

Note: To find more help with sending and receiving email messages, in messages list, click the trackwheel. Click **Help > Email Messages**.

Can I integrate my device with a corporate email account if I do not have access to a BlackBerry Enterprise Server?

If you use Microsoft Outlook (Workgroup installation) with an email account on a Microsoft Exchange Server version 5.5 or later and your device does not have access to a BlackBerry Enterprise Server, your system administrator might permit you to install the BlackBerry Desktop Redirector on your computer to integrate your device with your supported email account.

To integrate your device with a supported email account using the BlackBerry Desktop Redirector, when you install the BlackBerry Desktop Software, select **BlackBerry Desktop Redirector** as your message redirection option. See "Use the BlackBerry Desktop Software" on page 13 for more information about installing the BlackBerry Desktop Software.

Your computer must be on and the BlackBerry Desktop Redirector must be running to send and receive messages on your device.

Can I set up for email using both the BlackBerry Enterprise Server and BlackBerry Internet Service?

If your wireless service permits email setup using more than one service, complete the steps in "Setting up for email using BlackBerry Enterprise Server" on page 13 followed by the steps in "Setting up for email using BlackBerry Internet Service" on page 9.

Contact Vodafone customer support for more information about availability and the fees that might be associated with email setup using both BlackBerry Enterprise Server and BlackBerry Internet Service.

How do I reset my device?

To reset your device hardware and programs, remove and then reinsert the battery.

How do I clean the screen?

Clean the screen and device using only a soft dry cloth. Do not use liquid, aerosol cleaners, or solvents on or near your device. Disconnect any cables from the computer and unplug any charging accessories from the electrical outlet before cleaning.

Note: See the *BlackBerry Wireless Device Safety and Product Information* for more information about caring for your device.

Where can I buy accessories for my device?

You can buy approved accessories for your device online at:

www.shopblackberry.com

Note: Use only those accessories approved by Research In Motion (RIM) for use with your particular device model. Using any accessories not approved by RIM for use with your particular device model might invalidate any approval or warranty applicable to the device and might be dangerous.

Where can I download games and ring tones for my device?

Many third-party vendors offer games, ring tones, and other programs for your device online. You can download new programs using your device browser, or download them using your computer and load them onto your device using the Application Loader tool of the BlackBerry Desktop Software.

For example, you can visit the following web site using the browser on your device:

mobile.blackberry.com

Note: Your use of third party software shall be governed by and subject to you agreeing to the terms of separate software licenses, if any, for those products or services. Any third party products or services that are provided with RIM's products and services are provided "as is". RIM makes no representation, warranty or guarantee whatsoever in relation to the third party products or services and RIM assumes no liability whatsoever in relation to the third party products and services even if RIM has been advised of the possibility of such damages or can anticipate such damages.

Why does the screen on my device turn off?

When you do not use your device for a period of time, the screen turns off to conserve battery power. Roll the trackwheel or press any key to turn the screen on again.

BlackBerry Internet Service - frequently asked questions

How do I open BlackBerry Internet Service?

See "Log in to your account" on page 9 for more information.

Why does the Mobile Email option not appear on the Home screen?

Verify that your device is connected to the wireless network and that you are in a wireless coverage area. See "Connect to the wireless network" on page 6 for more information.

If your device uses a theme, the option might appear in a folder or list instead of on the Home screen. The option might also use a different name.

If the option still does not appear, contact Vodafone customer support.

What is the BlackBerry Mail Connector?

The BlackBerry Mail Connector is a program that you might have to install on your local computer to enable BlackBerry Internet Service to access your corporate Microsoft Outlook or IBM Lotus Notes email account when the corporate messaging server is behind a firewall.

The BlackBerry Mail Connector is designed to access and copy your messages that are on a messaging server and send them to BlackBerry Internet Service.

The BlackBerry Internet Service email account setup process is designed to automatically detect whether the BlackBerry Mail Connector is required and to prompt you to install the application.

Why can I not add a third-party email account?

Verify that the third-party email account supports POP3 or IMAP4. Contact your Internet service provider for more information about the account types that you can add.

How do I update my account information?

1. Log in to your BlackBerry Internet Service account. See "Log in to your account" on page 9 for more information.
2. Click **View/Modify**.
Note: To follow a link in the browser, click the link. Click **Get Link**.
3. Edit your account information.
4. Click **Submit**.

I use multiple accounts. How do I set the email address that appears in the From field of messages that I send?

1. Log in to your BlackBerry Internet Service account. See "Log in to your account" on page 9 for more information.
2. In the **Send From Address** option, click the **here** link.
Note: To follow a link in the browser, click the link. Click **Get Link**.
3. On the Sent From Address screen, perform one of the following actions:

- To use your default BlackBerry Internet Service account as your Sent From Address, select **I want my Sent From Address to be my handheld email address**.
- To use an address from one of the email accounts that you have added, select **I want to choose one of the email accounts I have set up to be my Sent From Address**. Click **Submit**. Select an account.

- To use another email address, select **I want to customize my Sent From Address setting to use an email address that I'll enter**. Click **Submit**. Type the email address.

4. Click **Submit**.

How do I remove an account that I no longer want to access with my device?

1. Log in to your BlackBerry Internet Service account. See "Log in to your account" on page 9 for more information.

2. Select an email address.

Note: You cannot delete your default email account.

3. Click **Delete**.

Note: To follow a link in the browser, click the link. Click **Get Link**.

4. Click **Yes**.

How do I change the device that I want to use with my account?

Your account is linked to your particular device. If you switch devices, update the device PIN that is associated with your account, or call Vodafone customer support to delete your account.

1. Use your new device to log in to your BlackBerry Internet Service account. See "Log in to your account" on page 9 for more information.

2. Click **Change handheld that works with the accounts listed above**.

Note: To follow a link in the browser, click the link. Click **Get Link**.

3. On the Change Handheld screen, verify that the new device information is correct.

- **PIN:** personal information number (PIN) for your device

- **IMEI:** The international mobile equipment identity (IMEI) number for your device.

Note: To find your PIN and IMEI, in the device options, click **Status**.

4. Click **Submit**.

5. Click **Done**.

Why is my mailbox full?

Your BlackBerry Internet Service account has a size limit. To avoid reaching the limit, delete items from your mailbox regularly or set up auto-aging rules for message deletion.

To view the available space in your mailbox or to set up auto-aging rules, log in to your BlackBerry Internet Service account. Click **Manage Folders**.

See the *BlackBerry Internet Service Online Help* for information on managing your account by deleting messages.

How do I find more information on managing my account?

Log in to your BlackBerry Internet Service account using a desktop browser. See "Log in to your account" on page 9 for more information.

See the *BlackBerry Internet Service Online Help* for more information on managing your account.
